ACTIVE DREDGE ZONE

THE CROWN ESTATE AGREEMENT AREA

The Active Dredge Zone defines the area available to be dredged at any one time*. While under normal circumstances this is defined by the limits of the licence, zoning schemes (introduced either as licence conditions or as voluntary initiatives by licensees) can significantly reduce this area. The limits of the Active Dredge Zones defined on this chart are monitored through the analysis of Electronic Monitoring System data.

Any changes to Active Dredge Zones presented on this chart after the issue date are the responsibility of individual licensees, as bound by specific licence conditions or agreed arrangements.

This map is produced from the OS Map with the permission of Ordnance Survey on behalf of HM Stationary Office.

Reproduction in whole or in part is not permitted without the prior consent of The Crown Estate. Produced by Royal HaskoningDHV on behalf of The Crown Estate.

*Exclusion zones for the purpose of protecting minimum permitted resource depths, charted wrecks, cables, etc may exist within Active Dredge Zones, but are not shown as their complex boundaries cannot be clearly represented on charts of this scale. Enquiries about the presence of such zones should be made to the relevant licensee.

SCALE : 1:600,000

NOTE: NOT TO BE USED FOR NAVIGATION
