

# Leasing Round 4

## Seabed Bidding Areas

We have undertaken extensive analysis of the technical resource and constraints on the seabed around England, Wales and Northern Ireland.

Working in collaboration with statutory stakeholders, we have identified four areas that offer the strongest opportunities for new offshore wind leasing development at the current time.

This will help to balance a range of needs on the seabed, reduce consenting risk, and ensure developers are well placed to bring the strongest possible projects forward.

### The four Seabed Bidding Areas are:

#### Bidding Area 1

##### Dogger Bank

Comprising the Dogger Bank region

#### Bidding Area 2

##### Eastern Regions

Comprising the Southern North Sea region, the eastern part of The Wash region, and the East Anglia region

#### Bidding Area 3

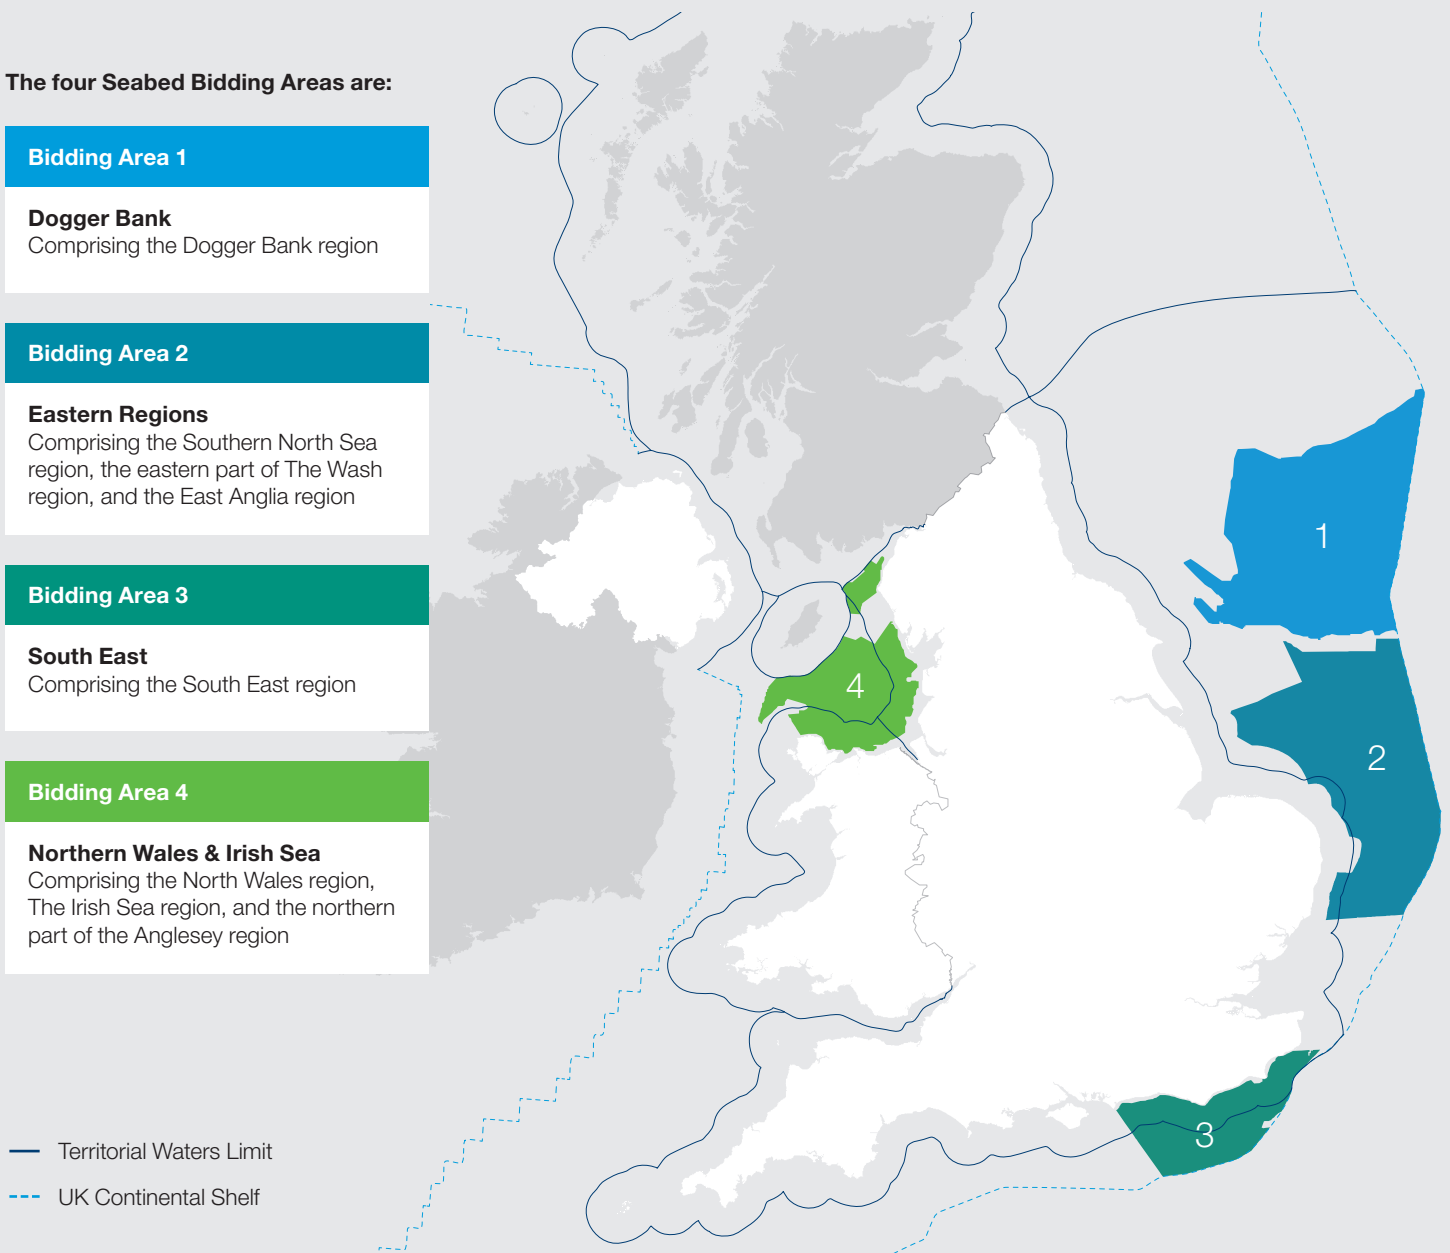

##### South East

Comprising the South East region

#### Bidding Area 4

##### Northern Wales & Irish Sea

Comprising the North Wales region, The Irish Sea region, and the northern part of the Anglesey region
